## WORK EXPERIENCE

- |                                                                                                                                            |                                     |
|--------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------|
| <b>SEO Web Support - OOM Singapore</b>                                                                                                     | <b>June 30, 2025 - Dec 29, 2025</b> |
| • Coordinated with Account Managers to manage SEO tasks for multiple client websites, including blog posting and content/Web Pages updates |                                     |
| • Implemented website content and UI changes aligned with SEO best practices                                                               |                                     |
| • Used cPanel and FTP for website backups and staging support                                                                              |                                     |
| • Installed and managed tracking codes for website analytics                                                                               |                                     |
| • Monitored website performance using Google Search Console                                                                                |                                     |
- 
- |                                                                                                              |                              |
|--------------------------------------------------------------------------------------------------------------|------------------------------|
| <b>Full-Stack Angular Developer Trainee - Clark Outsourcing</b>                                              | <b>June 2024 - Sept 2024</b> |
| • Handled small task tickets for the company HRIS website, focusing on user experience and responsive design |                              |
| • Performed basic database migrations and implemented CRUD functionalities                                   |                              |
| • Collaborated with senior developers for training, feedback, and workflow alignment                         |                              |
| • Self-trained in Angular during free time to improve development skills                                     |                              |
| • Utilized AI tools to improve code readability and development efficiency                                   |                              |
- 

## EDUCATION

- |                              |                    |
|------------------------------|--------------------|
| <b>Holy Angel University</b> | <b>2021 - 2025</b> |
