PROFESSIONAL SUMMARY

A results-driven Web Developer experienced in building, maintaining, and optimizing client websites using WordPress, Shopify, and modern web technologies. Proven ability to lead website projects from concept to launch, develop responsive and user-focused web experiences, implement SEO and analytics solutions, and integrate third-party tools for improved data capture and tracking. Highly detail-oriented and adaptable, with strong problem-solving skills and the ability to collaborate with designers and cross-functional teams while managing multiple client requirements.

TECHNICAL SKILLS

- **Frontend:** HTML5, CSS3, JavaScript, TypeScript, Angular, Next.js, TailwindCSS, Bootstrap
- **Backend:** Node.js, Express.js, Laravel, PHP
- **Database:** PostgreSQL, MySQL, MongoDB
- **CMS & Builders:** WordPress, Shopify, Elementor Pro
- **Analytics & Tracking:** Google Analytics (GA), Google Tag Manager (GTM), Google Search Console, HubSpot
- **Infrastructure & Tools:** Git, GitHub, cPanel, WHM, Cloudways, VS Code, Postman, WPCode
- **UI/UX & Design:** Figma, Responsive Design, Wireframing

WORK EXPERIENCE

Junior Web Developer - Skyrocket Studios (Full-Time) **March 11, 2026 - Present**

- Maintain and update 8+ client websites on WordPress and Shopify.
- Lead the development of client websites on WordPress and Shopify, working closely with designers from concept to launch.
- BWEARS Security: Co-developed the company's website from scratch on WordPress and Elementor, building pages and sections from designer mockups, including service, industry, blog, and case study pages.
- Integrated a Retell AI voice/chat widget into the site to support customer inquiries.
- Slowave: Served as Lead Web Developer, building the company's new website end to end and taking it from concept to launch.
- BreachSecureNow: Lead ongoing site maintenance, build new page sections, and manage form integrations to improve lead and user data capture.
- Nespresso: Handle website updates for seasonal campaigns, including SKU updates, campaign imagery, new page sections, and promotional banners with targeted sub-headers, URLs, and machine offers.
- Built Skyrocket Search Facet, a one-page WordPress site for an internal company project.
- Implement SEO recommendations from site crawl audits to improve technical health and search visibility.
- Set up Google Analytics and HubSpot event tracking and CTAs to measure user engagement and conversions.
- Prepare monthly end-of-month reports for clients covering site health, plugin updates, and WordPress version status.

Junior SEO Web Support - OOM Singapore (Full-Time) **June 30, 2025 - Dec 29, 2025**

- Provided website support for nearly 100 client websites, troubleshooting and fixing issues across WordPress, Shopify, and Wix, with occasional work on PrestaShop and Magento.
- Worked with Account Managers to complete SEO tasks across multiple client sites, including blog publishing and content and web page updates.
- Carried out technical SEO fixes and content and UI changes in line with SEO best practices.
- Built new page sections and redeveloped existing web pages to improve layout and performance.
- Diagnosed and fixed website errors using cPanel and FTP, including theme file edits, backups, and staging support.
- Installed and managed analytics and tracking codes across client websites.
- Used Google Search Console to monitor site performance, submit pages and sitemaps for indexing, and resolve indexing and coverage issues.
- Was promoted to a regular position by my 3rd month due to strong performance.

Full-Stack Angular Developer Trainee - Clark Outsourcing (Internship) **June 2024 - Sept 2024**

- Handled task tickets for the company's HRIS web application, focusing on user experience and responsive design.
- Built CRUD features and performed basic database migrations.
- Worked with senior developers through code reviews and feedback, and followed the team's development workflow.
- Learned Angular on my own to strengthen my front-end development skills.
- Used AI tools to improve code readability and development efficiency.

SEO / Web Developer - Channel A Media - (Contract) **June 2023 - December 2023**

- Worked in a team of 4 students to build a website for a real business owner as part of a school project.
- Gathered the client's requirements and turned their business goals into a working website.
- Applied SEO strategies with the goal of ranking the business #1 in Google search for its target keywords.
